Oxygen Mask and Tank with Tubing Models

Product URL <https://poserworld.com/oxygen-mask-and-tank-with-tubing-models>

Short Description: The 3D medical oxygen tank, mask and tubing models for Poser and DAZ Studio has morphs and movements. The mask has a strap morph to adjust the strap size (long/wider). The mask bag has morphs to swell and flatten the bag. The mask center axis is set to the tubing port to make it easier to position the tubing to match the mask. The oxygen tubing has six morphs to adjust the position of the tubing relative to the mask. The wheels on the tank have movements to make them spin. This model set and morphs took 60 hours to model and texture and is a Poser World member requested model set.
