Donuts and Box Food Model FBX Format

Product URL https://poserworld.com/3d-donuts-and-box-food-model-fbx-format

Short Description: A 3D set of donuts and box food models in FBX format. Each donut is cut into "bite" pieces. Contains 18,736 polygons (total all models).

The 3D models are in FBX 7.1 3D format (2011 binary, embedded textures). The FBX format 3D models import seamless into Unity 3D, Lightwave, 3ds max, Cinema 4D, Maya, Blender, Shade, Modo, iClone, and other 3D modeling software that supports FBX 7.1 file format imports. Most 3D software created since 2011 should import the 7.1 binary format without any issues.
