PoserWorld.comThis product's content was created by: Atreria 3D, and Dreamcutter exclusively for PoserWorld. A traditional rigged Bison figure compatible with Poser 6 up. Includes 8 poses and 4 animations, horn size and fur coat thickness morphs, high definition materials and textures (4000x4000) default and 1mb, and 2mb texture map material sets. The American bison and the European bison are the largest surviving terrestrial animals in North America and Europe. They are similar in appearance to other bovines such as cattle and true buffalo. They are broad and muscular with shaggy coats of long hair. Adults grow up to 2 m (6 ft 7 in) in height and 3.35 m (11.0 ft) in length for American bison and up to 2.1 metres (6 ft 11 in) in height and 2.9 metres (9 ft 6 in) in length for European bison. American bison can weigh from around 400 to 1,270 kg (880 to 2,800 lb) and European bison can weigh from 800 to 1,000 kg (1,800 to 2,200 lb). European bison tend to be taller than American bison. Bison are nomadic grazers and travel in herds. The bulls leave the herds of females at two or three years of age, and join a herd of males, which are generally smaller than female herds. Mature bulls rarely travel alone. Source Wikipedia.
