Discount City Building Model

Product URL <https://poserworld.com/discount-city-building-model>

Short Description: The 3D Discount City building model for Poser and DAZ Studio, has doors that open and closed. The Window glass textures can be changed to transparent and there is a basic interior included. To change the glass to transparent, remove the glass texture from each window and door glass and make a Poser glass shader and apply it. There is also a interior texture template if you wish to modify and/or use the interior. This model took eight hours to model and texture.
