Texas Holdem Poker Model Set

Product URL <https://poserworld.com/texas-holdem-poker-model-set>

Short Description: The single card and the hand cards can be moved independently. The hand cards are parented to Card1. The chip stack chips can be moved independently of each other and are parented to ChipStack1. "The Boat" cards can be moved independently of each other and are parented to BoatCard1. There are 54 card textures (all 4 suits plus two jokers) and there are 12 different chip denominations / textures. The table has a height change morph for easier adjustment. The table top also has built-in cup holders. This model set took 14 hours to model and texture.
