House and Building Utility Models

Product URL <https://poserworld.com/house-and-building-utility-models>

Short Description: The 3D building utility models for Poser and DAZ Studio contains an electricity meter, a gas meter and a Central Air AC unit. Each of the models has a morph to lengthen the pipes if needed. This set is already included in our modular apartment building. These models make a perfect addition to any house or building scene. This model set took 6 hours to model and texture.
