Traffic Light Models

Product URL <https://poserworld.com/traffic-light-models>

Short Description: The 3D traffic light models for Poser and DAZ Studio has single and a double traffic poles. The traffic lights have three textures (Green, Yellow and RED), the traffic displays have WALK and DO NOT WALK textures and have movements so they can be rotated as needed. This model set took 9 hours to model and textured. The traffic light models work perfectly with our City corner scene, our City streets scene, City street dining scene, and Small Town streets scene.
