3 Store Building and Streets City Scene

Product URL <https://poserworld.com/3-store-building-and-streets-city-scene>

Short Description: The 3D three store building and street scene for Poser and DAZ Studio, works perfectly with our large city street corner city street dining and the large city street scenes. We also have skyscraper building models for use in the background. We also have modular street sections modular corner / intersection sections available for use with this scene. This 3D scene took 10 hours to model and texture.
