Large Small Town Streets Scene with Movements

Product URL <https://poserworld.com/large-small-town-streets-scene-with-movements>

Short Description: This 3D scene for Poser and DAZ Studio contains 7 buildings, a water tower, trash cans (with movements), fire hydrant and street light. Everything is parented to the corner sidewalk / pavement under the bank model. Buildings and items can be hidden or deleted if needed. The coffee shop building model is a facade model and includes well detailed textures. The Victorian building model has an upper area that can be used as a scene. The luncheonette is a building facade model. The hardware store building model has doors that open and the interior can be used (interior not textured included texture is marked so you can texture the interior). The glass can also be made clear (no texture) The 1900's bank building has a door that opens and clear windows. The main building texture has a BUMP map. The Ice Cream Shop building model has movements to open and close the door and window and the easel sign can be moved independently of the building. The interior has basic textures and can be used. The pizza shop building model is a facade model. The texture includes a BUMP map (However it isn't applied by default).
