City Street Dining Scene

Product URL <https://poserworld.com/city-street-dining-scene>

Short Description: The 3D city street dining scene for Poser and DAZ Studio contains three food related buildings. All of the tables, chairs, trash cans and dumpster can be moved as needed. Everything is parented to the street section in front of the ice cream shop. Everything shown is included. The Ice Cream Shop building model has movements to open and close the door and window and the easel sign can be moved independently of the building. The interior has basic textures and can be used. The pizza shop and coffee shop are facade models. You can add more tables and chairs using our patio furniture models, as well as other small models on our furniture and housewares categories. This set can be used with our other You can also add more street sections using our modular streets and modular street corner / intersection models.
