Convenience Store and Parking Lot Scene

Product URL <https://poserworld.com/convenience-store-and-parking-lot-scene>

Short Description: The 3D convenience store scene for Poser and DAZ Studio, is a very large Poser scene that allows for many camera angles. This scene is perfect for use with our Romero police car, and we also have a rolling trash dumpster, ATM machine, pay phone, and a movie vending machine that can be used with it. The 3D model scene took 45 hours to model and texture.
