Hang Glider with Movements and Helmet Models

Product URL <https://poserworld.com/hang-glider-with-movements-and-helmet-models>

Short Description: The 3D hang glider model for Poser and DAZ Studio has harness morphs to adjust the size and also move the harness. The helmet is separate from the glider and can be scaled and sized to fit any Poser or DAZ figure. The model set took 75 hours to model and texture.
