Boeing 747 aircraft object for Vue

Product URL <https://poserworld.com/boeing-747-aircraft-object-for-vue>

Short Description: This product is a native Aircraft object for Vue in .vob format. The Boeing 747-400, known as the "Queen of the Skies," was designed to be twice the size of the Boeing 707, at the request of Pan Am's president, Juan Trippe. Its development was a significant milestone in aviation history, as it introduced the concept of the wide-body airliner and revolutionized air travel by making it more affordable for the masses. The first 747 rolled out of the Everett assembly building on September 30, 1968, and made its first flight on February 9, 1969. It served various purposes, including as a passenger airliner, a cargo freighter, and even as a platform for NASA's space shuttles and the U.S. president's Air Force One.

Other formats available at VanishingPoint.com.

Mesh by Digimation, optimized for Vue by Dream Cutter LLC for Vanishing Point Inc., May 2015.

Full Description: The Boeing 747-400, known as the "Queen of the Skies," was designed to be twice the size of the Boeing 707, at the request of Pan Am's president, Juan Trippe. Its development was a significant milestone in aviation history, as it introduced the concept of the wide-body airliner and revolutionized air travel by making it more affordable for the masses. The first 747 rolled out of the Everett assembly building on September 30, 1968, and made its first flight on February 9, 1969. It served various purposes, including as a passenger airliner, a cargo freighter, and even as a platform for NASA's space shuttles and the U.S. president's Air Force One. The 747's half-century run came to an end in January 2023, marking the end of an era for this iconic aircraft.

A major improvement to the proven 747 aircraft developed in 1969, the 747-400 version entered commercial service in February 1989 ultimately accomidating up to 600 passangers.

Overall length 231 ft 10 in (70.6 m)

Wingspan 211 ft 5 in (64.4 m)

Wing area 6027.78 ft² (560 m²)

Aspect ratio 7.4

Overall height 63 ft 8 in (19.4 m)

Weight 406,900 lb (184,570 kg)
