Chevrolet Corvette 2003 automobile object for Vue

Product URL <https://poserworld.com/chevrolet-corvette-2003-automobile-object-for-vue>

Short Description: Chevrolet Corvette 2003 automobile object for Vue (.vob). The Chevrolet Corvette is a sports car that has been manufactured by Chevrolet since 1953. It has been proclaimed as "America's Sports Car". It is built today exclusively at a General Motors assembly plant in Bowling Green, Kentucky, but in the past it was built in Flint, Michigan and St. Louis, Missouri. It was the first all-American sports car built by an American car manufacturer. The Chevrolet Corvette C5 was produced by Chevrolet for the 1997 through 2004 model years.

A major change from its predecessor the C4, the C5 featured a hydroformed box frame, a design that offered an improved structural platform, especially for a convertible body style. The transmission was relocated to the rear of the car to form an integrated, rear-mounted transaxle assembly.

This digital model is based on the 2003 C5 version of the Chevrolet Corvette.

Features:

- Vue Posable Object: Vob, cr2/ png, with 338,261 polygons.
- Digitally scanned from the actual car, which gives the digital model a highly accurate shape.
- All four wheels have treads modelled into the mesh, so there`s no need for bump maps.
- Highly detailed interior with modelled dials and switches.
- Left and right doors can open and close.
- Rear window can open and close.
- Headlights can raise up.
- Rotate all four wheels.
- Steering wheel is turnable affects both the front wheels and steering wheel.
- Two levers on the steering column can move up and down.
- The seats can move front-to-back to accommodate Vue characters.
- The hood does not open and there is no engine.

43 Vue Materials

- Textures for the instrument panel, license plate and logos are included.

- The rest of the materials use Vue materials, such as fabric, reflection, etc.

This product is designed for use in Vue 9 and above.
