Product URL <https://poserworld.com/3d-sci-fi-corridor-environment-fbx-format-2>

Short Description: A 3D sci fi corridor environment in FBX 3D model format. The section is modular so that a corridor may be made longer as needed. Contains 13,774 polygons.

The 3D models are in FBX 7.1 3D format (2011 binary, embedded textures). The FBX format 3D models import seamless into Unity 3D, Lightwave, 3ds max, Cinema 4D, Maya, Blender, Shade, Modo, iClone, and other 3D modeling software that supports FBX 7.1 file format imports. Most 3D software created since 2011 should import the 7.1 binary format without any issues.
